## Editorial

### IMPLEMENTATION SEMESTER SYSTEM IN THE COLLEGE

Guwahati University is going to put a plan of Semester System in the College level in the forthcoming year 2010. It is a great message to the field of education. No doubt it has a fine aim to find out the sector career but before the implementation the said system, Colleges should have fulfilled their teaching infrastructure that maintain the ratio of teacher and students. As University has a pure duty to all section of the society, it should have a liberal policy in the collection of fees. If the University raise their fees unbearable to the poor section of the people, large number of student will be deprived from the acquisition of Higher Education. As a result of which, it may be encouraged to establish private colleges. A democratic government should not encourage this. As the system of education of India is in laboratory, till now, we may except it as a sample of experiment.
