An Annual Newsletter, Duliajan College, 2022-2023, 2023-2024

Vol. 4

From the Principal's Desk

In the technology-driven present day environment, institutes of higher education like Duliajan College situated in a region with a low level of development in terms of education, connectivity, economy, etc. have faced multi-dimensional challenges since its inception in 1969. Despite all the challenges the college community has been trying its best to fulfill the vision of imparting value-based quality education to the learners, considering it as the much-needed collective responsibility of the institution. To cater to the needs of young learners for all-round development, different initiatives have been taken from time to time in the bygone years. 'DAPON', as the name suggests, seeks to reflect such initiatives, various achievements, and accomplishments by the stakeholders of the college.

I sincerely hope that this issue of 'DAPON' will inspire us to achieve newer heights of academic success in the current education landscape governed by NEP 2020. Wishing all the best to the editorial team of 'DAPON', 2022-2024.

Dr. Lok Bikash Gogoi

From the IQAC Desk

IQAC is an integral part of the College and works toward the realization of the goals of quality enhancement and sustenance. Founded in 2005, IQAC of Duliajan College had completed third cycle of assessment of the college by NAAC in the last year. After taking the responsibility of coordinator of IQAC, we have submitted the AQAR of 2022-23. Recently, we have submitted the Pilot Survey Binary Accreditation Framework (NAAC reform 2024) that was carried out by NAAC. Currently we are in the process of preparing AQAR for the year 2023-24.

It is indeed a matter of pride and happiness that our college is going to publish its annual news letter 'DAPON'. As we can see our reflection in mirror (Dapon), similarly, all our activities related to curricular and co-curricular aspects of the college get reflected in this news letter.

I wish that this year's 'DAPON' becomes a success just like the previous editions and fulfils all its needs and requirements. I convey my sincere gratitude to all the members of the editorial board who are engaged with the publication of 'DAPON' 2022-2024.

Dr. Jitumoni Borah
Coordinator, IQAC

Vision of the College

The college has a vision of imparting value based quality education to the learners. Being situated in a semiurban locality, about 80% of the students hail from rural areas with humble financial and academic background. So, the college undertakes all possible measures to uplift academic as well as extra academic performance of such students. The college also has the vision to be a regional leader in imparting value-based quality education and empower individuals to become self reliant, caring and responsible global citizens with a lifelong zest for learning and self employment.

Mission of the College

- To promote a college community, society and nation where spiritual, moral and genuine human values are lived and witnessed to.
- To contribute to the transformation of society through openness to reality and living the challenges of being socially conscious and responsible.
- To promote gender equality and empower women to have equal rights, conditions and opportunities, and the power to shape their own lives and contribute to the development of society.
- To promote inter-cultural and inter-religious harmony and communion by promoting genuine dialogue in an atmosphere of respect and openness.

Editorial

"Continuous Learning is the minimum requirement for success in any field." - Brian Tracy

Learning process is itself an illuminating subject. It is not just about learning the 3R's, i.e., reading, writing, and arithmetic. Instead, education is about gaining the knowledge and skills needed to become a better person for a healthy society. Learning is a continuous process that happens through everyday experiences, interactions, and reflections, through which people can grow personally, professionally, and socially. It can empower us to become empathetic individuals, build our self-confidence, learn more about our strengths, and address our weaknesses. It ignites a person's mind and thinking. Having education in certain area helps people think, feel, and behave in a way that contributes to their success and improves their personal satisfaction as well as of the community. Motivation, a democratic environment, resources, knowledgeable supportive and skilled teachers, frequent feedback and most importantly opportunities are essential for the overall development of the learners. Duliagan College strives to provide the conducive environment and opportunities for students to foster both their academic and non-academic development.
